[connect](#) to MySQL server

Time: 2005-12-18 8:52pm

[Script](#): /discuz/index.php

Error: Host '192.168.1.2' is not allowed to connect to this MySQL [server](#)  
Errno.: 1130

Similar error report has beed dispatched to administrator before.

```
[root@e mysql]# telnet 192.168.1.10 3306
Trying 192.168.1.10...
Connected to 192.168.1.10 (192.168.1.10).
Escape character is '^]'.
EHost '192.168.1.10' is not allowed to connect to this
MySQL serverConnection closed by foreign host.
```

```
[root@excellence kingson]# telnet localhost 3306
Trying 127.0.0.1...
Connected to localhost.localdomain (127.0.0.1).
Escape character is '^]'.
QHost 'excellence.homelinux.com' is not allowed to
connect to this MySQL serverConnection closed by
foreign host.
```

why i can't to connect to [mysql](#) .i am using mysql4.0 and useing MDK 10.0 ,do any one help me? thanks in advance

[MySQL server](#) uses permission based connection

<p>Member</p> <p>Registered: Sep 2005 Posts: 67</p> <p>Rep: <span style="color: green;">■</span></p>	<p>privileges.</p> <p>So the host(IP of this host box) from where you are trying to connect to mysql should be listed in the mysql's user <a href="#">table</a> with proper privileges to allow connections.</p> <p>Try the followng in that order to resolve:</p> <p>1&gt; At the console of the box on which mysql server is running type mysql -uroot -p 2&gt; It will prompt you for root pasword is it was set. Once insidew mysql command shell type user mysql; 3&gt; now type the following command: grant all privileges on *.* to '&lt;username&gt;'@'&lt;IP&gt;' identified by '&lt;password&gt;'; In above command replace &lt;username&gt; with the username you want for connection.&lt;IP&gt; with the IP of the host from where you want the permission to connect to this mysql server(in you case this shall be 192.168.1.2) You can also use 192.168.% to allow connection from all IP that begin eith 192.168. Similarly replacing &lt;IP&gt; with just % will allow connection from all hosts for this username. Replace &lt;password&gt; with the password you want. 4&gt; type this command: flush privileges;</p> <p>thats it.</p> <p>Now you should be able to connect to this mysql server from that said host.</p> <p>Do let me know if you face problems.</p>
